

The advertisement features a white background with several decorative material samples arranged diagonally. These samples include a dark grey/black material, a light tan material, a dark brown material, and a grey material, all showing a wood-grain texture. The text 'AICA-R' is in red, and 'Decorative Materials' is in black, enclosed in a thin black rectangular frame.

- Do not use this product in areas exposed to water or heat, such as in the kitchen, near a stove, sink and in the bathroom.
- Do not wipe the decorative surface with solvents like thinner.
- To remove dirt from the surface of AICA-R, use a soft cloth or sponge with a mild detergent and wipe, then wipe with water. Afterwards, be sure to remove any moisture with a dry cloth. Please note that nylon scrubbing pads, steel wool, and detergents containing abrasives may cause scratches.
- Due to the manufacturing process, the position and number of knots, as well as the shading in the pattern, are arranged randomly. As a result, each product will have a unique appearance, and we cannot accommodate requests for specific positions or quantities.
- The top and bottom ends of this product are shipped in a rough-cut state. Please trim the ends before use.
- Due to the characteristics of this product, there may be slight dimensional tolerances in the width direction.
